

SHAMWARI  
FOUNDATION  
WILDLIFE - ENVIRONMENT - COMMUNITY

## Domestic Animal Welfare & Outreach

*Any adoring pet owner will know what it costs to keep an animal healthy and happy. The Shamwari Foundation provides free vaccinations, skin treatments, and sterilisation campaigns for dogs and cats in neighbouring communities.*

### Challenges faced by these animals:

- Lack of access to veterinary care
- Infectious diseases such as rabies
- Malnutrition and untreated injuries
- Over-population
- Skin diseases and infection

### Shamwari Foundation alleviates these challenges by:

- Vaccination and sterilization campaigns
- Treatment of infections, injuries and malnutrition
- Education on primary veterinary care

**Shamwari Foundation needs your help to expand our impact with greater resources!**

# R1,500,000

**CONTRIBUTION  
GOAL**  
(As of May 2025)

R1,250,000 = MOBILE VETERINARY CLINIC
