Basic Youth Skills Development

Apprenticeships are known globally as vital economic drivers, providing a sustainable, skilled future workforce. And investing in people is one of the most effective ways of restoring an ailing economy. By focusing on local industry labour needs, we stimulate community investment and purpose.

Skilled Local Job Applicants:

- With vast agricultural areas and wildlife reserves, there are a variety of local employment opportunities. However, local matriculants and young adults find it very difficult to find employment. A large percentage do not have the financial support for further education and training.

Financial assistance for basic skills development and apprenticeships is needed.

Skills with Significant Potential:

- Driver's Licences
- Computer and IT Training
- Piloting Drones
- Security Services
- Fence Installation and Maintenance
- Professional Housekeeping

R1,000,000

**CONTRIBUTION
GOAL**
(As of May 2025)
