WILDLIFE - ENVIRONMENT - COMMUNITY

IN PARTNERSHIP WITH:

Vulture Captive Breeding Programmes

As one of the few organisations in Africa focused exclusively on protecting and rehabilitating vultures, VulPro operates throughout Southern Africa, and together with the Shamwari Foundation, VulPro@SHAMWARI operates at the Eastern Cape rehabilitation centre.

AFRICAN VULTURE SPECIES ARE EXPERIENCING A CATASTROPHIC DECLINE, WITH CERTAIN POPULATIONS HAVING DECREASED BY MORE THAN 90% OVER THE PAST 3 DECADES.

Threats Faced by African Vultures:

- Poisoned Carcasses Linked to Poaching
- Power Line and Wind Energy Turbine Collisions
- Reduction in Nesting and Foraging Habitats
- Targeted Killings for Local Cultural Practices

VulPro Addresses These Threats by:

- Rescue, Rehabilitation, and Release
- Captive Breeding Programmes
- Research and Monitoring
- Community and Conservation Partnerships
- Education and Advocacy

R5,100,000

**CONTRIBUTION
GOAL**

(As of May 2025)

R5,000,000 = 5 ADDITIONAL LARGE ENCLOSURES

R75,000 = SURGICAL EQUIPMENT

R25,000 = VETERINARY MICROSCOPE
